Mary Bryant Shrader

THE PITCH

- **PROVEN AUTHOR WITH GROWING PLATFORM:** The Modern Pioneer Cookbook has sold over 26K copies to date. Socials: YouTube (1.1M); Instagram (18K); Facebook (21K). Almost 90% of Mary's audience is in North America, with 83% in the US and 4% in Canada.
- **MORE THAN JUST RECIPES:** In addition to detailed, step-by-step instructions and recipes, Mary teaches readers how to use her unique Four Corners Pantry approach to ensure pantries are always well stocked and food never goes bad.
- **CLEAR RECIPES AND IN-DEPTH INSTRUCTION:** Mary has an incredible wealth of knowledge when it comes to preservation methods. This book will be different from competing books that are strictly step-by-step, Mary will include history, fascinating stories, and the wealth of knowledge that Mary's fans have come to appreciate.
- **INFLUENCER LED, TOPIC DRIVEN:** Most of the bestselling books in this category are not from influencers. The Ball books remain the standard, however, the Rockridge Press book has sold nearly 175K units, is small, and is written by an influencer with an audience of less than 40K followers. Even smaller books from authors with no platforms sell 100 to 200 copies per week.

THE BOOK

There is no better way to preserve food than by using the methods our predecessors used. Canning, preserving, pickling, and drying have been used for centuries to make fresh food last longer and preserve garden harvests. Now, as grocery prices continue to rise, people have realized that these methods, when done properly and safely, can preserve fresh food for months and even years, which means less waste, a well-stocked pantry, and a bounty of delicious and healthy food.

Fans of Mary Bryant Shrader's YouTube channel and website love her positive, encouraging approach to teaching complex topics in a way that is both entertaining and richly informative. In her first book, *The Modern Pioneer Cookbook*, Mary shared tips for cooking traditional foods and using simple ingredients to make healthy meals more economically. Now, in *The Modern Pioneer Pantry*, Mary goes in depth and teaches you how to use **water-bath canning, pressure canning, pickling, fermenting, freezing, dehydrating, and drying to preserve everything** from fruits and vegetables to salads, jams and jellies, pickles, and so much more.

In addition to in-depth instruction for each method and over 100 recipes, you'll learn how to use Mary's **unique Four Corners Pantry approach** to ensure your home will stay well stocked and food will never go bad. You'll also learn how to source inexpensive ingredients, get the most out of your garden (or the produce section at your local supermarkets), and create a pantry that will be a source of pride and also nutrient-rich food for your family. Each chapter also includes a scannable QR code that links to instructional videos on the Mary's Nest website.

A History of Astrology, Divination and Prophecy

A millennia-long love affair with prediction and divination

THE PITCH

- **ALL THINGS MYSTICAL:** A fascinating global history of celestial and earthly influences – from the Chinese Zodiac and Tarot to palmistry and dowsing
- **BURSTING WITH ESOTERICA:** Star charts, symbolism, other-worldly photos, and mysterious curios abound
- **PRACTICAL GUIDANCE:** Explains traditional methods of channeling powers – from reading runes and Indian birth charts to geomancy (divination relating to the Earth) and onomancy (fortune-telling based on names) – clearly and simply
- **SERIES MAGIC:** *A History of Magic, Witchcraft and the Occult* has sold 250k+ copies worldwide; *A History of Ghosts, Spirits, and the Supernatural* has sold 20k+ copies since its UK publication in August 2024

THE BOOK

Discover the spellbinding history of astrology and divination across the world.

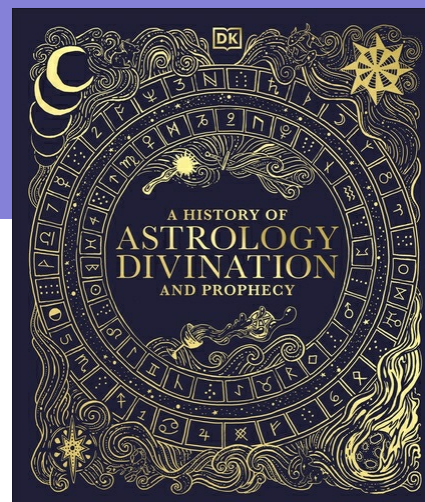

A History of Astrology, Divination and Prophecy traces the journey of astrology from its roots in the 3rd century BCE, when ancient Mesopotamians studied celestial bodies with the aim of predicting the future, through its development into the distinct branches of Eastern astrology, Indian (Vedic) astrology, and the Western astrology that we know today.

Learn about the numerous techniques that have been devised over the centuries to predict the future – from the use of yarrow stalks of the *I Ching* over 2,500 years ago to methods still practised today, such as Tarot, crystals, palmistry, and numerology. Discover the stories of influential and learned seers, from the oracles of Ancient Greece to the 16th-century French philosopher and mystic Nostradamus, who is said to have predicted the death of Queen Elizabeth II, and explore how our fear of and fascination with astrology, divination, prediction, and prophecy have been depicted in art and literature.

Comprehensive, accessible, and beautifully illustrated, *A History of Astrology, Divination and Prophecy* will intrigue and inspire you in equal measure, and tell you everything you need to know about these rich and fascinating histories.

Minna's Masks (Wonderfully Wired Stories)

Louise Gooding

Meet Minna and learn about the concept of masking in this inclusive picture book for young children

THE PITCH

- **AWARD CONTENDER:** Author Louise Gooding's first book with DK - Wonderfully Wired Brains - was highly commended in The Week Junior Book Awards 2024, Children's Book of the Year: STEM category
- **TOPICAL:** "It's estimated that about one person in seven in the UK is neurodivergent" (The Donaldson Trust, 2024), with the impact felt in many families and classrooms
- **AUTHOR EXPERTISE:** Louise Gooding is an Inclusive Minds Ambassador and neurodiversity advocate with first-hand experience of neurodiversity, including ADHD and autism
- **STORY OF ACCEPTANCE:** When Minna forgets to take her masks to school she feels overwhelmed, but she learns that it is possible to feel brave, calm, and accepted - with or without her masks

THE BOOK

This heart-warming and inclusive picture book introduces the concept of masking to young children - neurodivergent or otherwise.

Meet Minna. When Minna needs to feel brave, she wears a mask, when she meets new people, she wears a mask. On Minna's first day at a new school, she realises she's left her masks at home and starts to feel very nervous indeed. Things are *too* loud and *too* noisy – what if she says the wrong thing or does something silly? But when a classmate shows Minna the mask in his back pocket, she realises she's not alone. Perhaps it *is* possible to be accepted – with or without a mask.

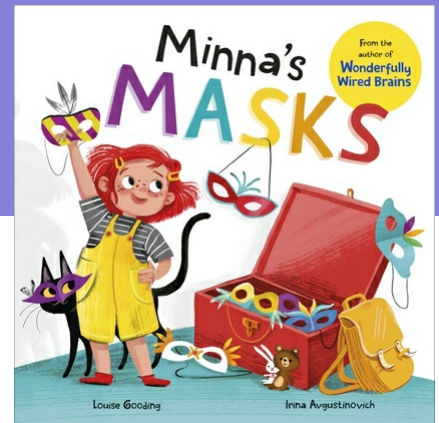

Masking is used by people to help them fit in or adjust to situations where they may otherwise feel insecure, or unsure. Through Minna's story, readers will learn about masking as well as important lessons about empathy and compassion.

From Louise Gooding, author of *Wonderfully Wired Brains*, which was 'Highly Commended' at The Week Junior book awards, comes this vibrant and inclusive picture book series of *Wonderfully Wired Stories* that sensitively explores a range of neurodivergent experiences. Each book comes with expert guidance to help caregivers discuss big topics with their little learners.

THE AUTHOR

After years working in children's entertainment, **Louise Gooding** channelled her creativity into writing. Louise has a keen interest in sharing stories that feature characters that stand out, are different, and who have something to say. Inspired by stories from her own experiences and those of her family, she took up writing to find a way of discussing neurological and physical diversity, and how to explore other sensitive issues within children's books.

In this charming illustrated series of books to keep and collect, you can see what they saw, and be inspired to create your own artworks, too. In *What the Artist Saw: Henri Matisse*, meet the famous French painter and printmaker.

In this series, follow the artists' stories and find intriguing facts about their environments and key masterpieces. Then see what you can see and make your own art. Take a closer look at landscapes, or even yourself, with Vincent van Gogh. Try crafting a story in fabric like Faith Ringgold, or carve a woodblock print at home with Hokusai. Every book in this series is one to treasure and keep – perfect for budding young artists to explore exhibitions with, then continue their own artistic journeys.
