### THE BOOK

**"There are seven essential things in life: firewood, rice, oil, salt, soy sauce, vinegar and tea." So goes the ancient Chinese proverb. So far, so familiar, perhaps ... but Handa Cheng is keen to change our perception of Chinese food, and shed light on a cuisine that is rich and varied, with unique ingredients, techniques and traditions.**

In this comprehensive guide, Handa introduces the vastly different culinary regions of this immense country and their speciality dishes, from Mouth-watering chicken to Mapo tofu to Yu Xiang aubergine. From luxurious imperial fare to frugal vegetarian recipes of Buddhist monks, Handa distils 5,000 years of history and food culture into 14 simple chapters, with easy, fresh recipes that are packed with "good to know" tips and memories of his childhood in Wenzhou.

Step-by-step recipes help you learn the essentials, while 35 illustrated chef's tips and techniques uncover key ingredients and cooking methods. Feature pages get to the heart of each chapter: tofu as a blank page, the infinite possibilities of an egg, Chinese food and herbal medicine, street food and dining out, and even the ceremonial practice of tea-drinking. In The Guide to Chinese Cooking, Handa explores taste, texture, and spice to recreate authentic family dishes that are well-balanced and seasonal – all with an emphasis on everyday cooking and eating.

#### THE BOOK

Each area of a garden offers a different environment for plants, with differing levels of sun, soil, moisture, and more.

In this book, expert gardener and vegetable-grower Lucy Chamberlain breaks down the environments we may find in our gardens into seven zones, from sunny and sheltered through to shady and dry – as well as using indoor space.

Following the principle of “right crop, right place”, everyone can grow fruits and vegetables that will thrive in their space, large or small. Including varieties of vegetables, fruits, herbs, edible flowers, and crops in pots, there is something here for everyone – from favourites like chilis and figs to honeyberry, wasabi, agretti, and amaranth.

Learn how to identify and map the zones of your space, make the most of the natural conditions, collect water, use a greenhouse effectively, and understand the basics of what’s happening in the soil. With photographs of crops, diagrams of each zone, and a trouble-shooter guide to managing plant problems, this book will truly enable gardeners to grow food anywhere.

A chunky touch-and-feel book that introduces toddlers to a farmyard of animals to explore and love.

Welcome to the farm, where there are lots of animals to stroke, tickle, touch, and say hello to! Let your toddlers' little hands roam the pages of this book and feel a lamb's woolly coat and a duckling's fluffy tummy. But what does a piglet's face feel like? Read along together and find out!

This book is the perfect next step in your toddler's learning journey. While the different textures encourage their sensory development, the short fun text is great for reading aloud and building early language skills. Not too big and not too small, this book is the ideal size for little hands to hold, explore, and turn the pages to see what farm friends are waiting for them.

A farm-tastic gift, this book will be an amazing addition to every toddler's first library. Years of reading fun are sure to follow!

# My Death Diary

## A Guided Journal for Mortals

Anita Hannig

**A guided self-care journal that helps you take time to reflect on your beliefs about death, grieve loved ones, and ultimately get more joy out of the life you're lucky enough to live.**

### THE PITCH

- **Unique self-care:** A completely new concept in the guided journal space that focuses on engaging with the idea of death to ultimately bring more joy, peace, and gratitude into our daily lives
- **Expert author:** Anita Hannig has taught a university-level course on death and dying and is the author of *The Day I Die*, an acclaimed narrative nonfiction book about medical assistance in dying in America
- **Author location:** Anita Hannig lives in Oregon.

### THE BOOK

#### Making friends with death is the ultimate liberation

Contemplating death is scary. Most of us prefer not to dwell on the fact that our time here is limited—it's much easier to imagine we'll all live forever. And yet, death is an integral part of life. Rather than shield you from your mortality, this guided journal gives you the space and tools to explore your own relationship with it. *My Death Diary* takes you gently by the hand and guides you down a path toward examining your own mortality.

Doing this work isn't easy; it requires a great deal of courage and commitment. But it is so worth it. Because nothing brings you more immediately into the present than the realization that life is finite.

What if you used this time—right now—to no longer simply ignore or fear death but to equip yourself for it?

*My Death Diary* will help you embrace the idea that, eventually, this all will end—so you can prioritize what truly matters.

### THE AUTHOR

Anita Hannig is associate professor of anthropology at Brandeis University, where she teaches classes on the cultural dimensions of medicine and death and dying. She spent five years studying how access to assisted dying is transforming the ways Americans die. In recent years, Anita has emerged as a leading voice on death literacy in America, giving interviews for the Washington Post, USA Today, and the Boston Globe. She has written for *Cognoscenti*, *Undark Magazine*, and the *Seattle Times*, among others.

# The Grift

## The Downward Spiral of Black Republicans from the Party of Lincoln to the Cult of Trump

Clay Cane

Award-winning journalist and SiriusXM radio host Clay Cane reveals how over a 200 year history, Black Republicans have transformed from leaders of justice to insidious sellouts who have aligned themselves with white supremacists in order to gain power.

### THE PITCH

- **Instant Bestseller:** Hardcover was an instant *New York Times* and *USA Today* bestseller, spending four consecutive weeks on the NYT list
- **Perfect for individuals tuned into social issues:** Readers are tending to gravitate towards books on contemporary politics, especially those with a Black narrative
- **Controversial and thought provoking:** Cane's area of expertise as a reporter is delivering incisive information on divisive social issues, and this book will create important dialogue and discussion
- **Author platform:** Cane has a large platform through his radio show, as a content creator for BET.com, and he has strong engagement with his audience
- **Author location:** The author lives in New York

### THE BOOK

#### AN INSTANT *NEW YORK TIMES* AND *USA TODAY* BESTSELLER

Part history and part cultural analysis, *The Grift* chronicles the nuanced history of Black Republicans. Clay Cane lays out how Black Republicanism has been mangled by opportunists who are apologists for racism.

After the Civil War, the pillars of Black Republicanism were a balanced critique of both political parties, civil rights for all Americans, reinventing an economy based on exploitation, and, most importantly, building thriving Black communities. How did Black Republicanism devolve from revolutionaries like Frederick Douglass to the puppets in the Trump era?

Whether it's radical conservatives like South Carolina Senator Tim Scott or Supreme Court Justice Clarence Thomas, they are consistently viral news and continuously upholding egregious laws at the expense of their Black brethren. Black faces in high places who provide cover for explicit bigotry are one of the greatest threats to the liberation of Black and brown people. By studying these figures and their tactics, Cane exposes the grift and lays out a plan to emancipate our future.

### THE AUTHOR

Clay Cane is an award-winning journalist, writer, radio host, and political commentator. A graduate of Rutgers University with a degree in African-American Studies, his work on race, culture, and politics have appeared in national publications, including the *Washington Post*, CNN, and The Grid. Make Your Finances Simple So Your Life Without Kids Can Be Amazing

Jay Zigmont

Living a life of childfree wealth means you have the time, money, and freedom to do what you want. Jay Zigmont, PhD, MBA, CFP®, and founder of Childfree Wealth, shares how to plan for the life you want and then figure out a financial plan that will get you there, using his FILE (financial independence, live early) method.

## THE PITCH

- **Massive audience and growing:** In a recent study, 1 in 5 adults said they are childfree, meaning they don't have kids and never plan to. It's also estimated that there are between 50 and 60 million Americans who are childfree, and that number is only expected to get bigger
- **Meeting an unmet need:** This is one of the first books on the subject and will meet an underserved, largely ignored, yet growing market in a big way
- **Changing the conversation:** High profile celebrities like Chelsea Handler and Seth Rogen are speaking publicly about their decision to be childfree and more people are sharing their stories on social media platforms like Tiktok and Reddit (#childfree has over 580 million views, and the childfree Reddit community has 1.5 million members), changing the conversation around this highly stigmatized topic
- **Author location:** The author lives in Mississippi

## THE BOOK

**An essential and comprehensive personal finance and money management guide for Childfree and Permanently Childless people.**

*Design the life you want, then create the right financial plan to get you there.*

Financial planning looks vastly different for DINKs (dual-income, no kids) and SINKs (single-income, no kids). But nearly all the advice out there assumes you have children or will have them someday. Everything from pursuing the kind of career you want; deciding whether you want to buy a house, rent, or hit the road as a digital nomad; to planning and filing taxes; budgeting and investing your money; and getting set up for retirement or your later years is different. Simply said: When you aren't following the Standard LifeScript (go to college, get married, buy a house, have kids), you have the time, money, and freedom to do what you want.

Childfree Wealth Specialist® Dr. Jay Zigmont flips FIRE—Financial Independence, Retire Early—on its head, showing how people without kids can live the FILE life—Financial Independence, LIVE Early—by following his eight No-Baby Steps. Whether you're single, coupled up, or planning the perfect Golden Girls living arrangement with your best friends, *The Childfree Guide to Life and Money* is the most comprehensive resource for designing your life, figuring out your finances, and living your best life.

# V As In Victim

Lawrence Treat

**"So Mitch knew in general why he was a cop...But Jub Freeman was different, and the difference bothered Mitch."**

## THE PITCH

- **Groundbreaking:** The first ever police procedural, the original publication was hailed by Anthony Boucher as "an epoch-making book, marking a fresh new realistic approach to police procedure"
- **Geek appeal:** Fans of CSI will enjoy the use of science as the definitive means of solving the case
- **Psychological depth:** Combines a well-constructed puzzle with deft psychological observations that the author was acclaimed for

## THE BOOK

Originally published in 1945, *V as in Victim* was the first crime novel to feature ordinary cops as the main characters, launching the subgenre known as "police procedurals" and earning Lawrence Treat an important place in the history of mysteries.

"So Mitch knew in general why he was a cop. ...But Jub Freeman was different, and the difference bothered Mitch."

New York City Police Detective Mitch Taylor doesn't love being a cop, but it's a decent, respectable job—except for the paperwork. He files his cases as "investigations," not crimes, so that failure to solve them won't jeopardize his promotion. Lab tech Jub Freeman never wanted to work for the police, but landing in the lab suited him well. When they're called to the scene of a hit and run accident, Mitch is annoyed with the witnesses. None noted the license plate number of the car, but one insists that she heard a woman scream just before the accident.

Interviewing the woman in her apartment overlooking the accident, Mitch and Jub are surprised to learn that her scream had nothing to do with the hit and run: she's discovered her cat died, for no apparent reason. When her date doesn't show up either, she grows worried and asks the police to check out his apartment at a nearby hotel. There, they find her friend bludgeoned to death.

Are the cases related? With no brilliant amateur detectives in sight, can regular police solve these puzzles? Schooled in the ways that real law enforcement operates, Treat takes the readers along on a satisfying ride to justice.
