Stop saying yes. Start saying no. Change your life!

You have probably said "yes" to bosses, partners, family, friends, and even strangers, when you actually want to say "no." "He thinks I'll destroy him. It's hard to love someone you know is actually a knife pressed against your throat.

I should know."

Isolde Laurence is an uncommon bride.

She's been raised to do as her father told her, put elegance and duty above all else—but unbeknownst to him, her loyalty has shifted. Now she's in service to the Church, one of the elite spies who work for her uncle, a cardinal. Her latest assignment from the Church? Marry Mark Trevena, the owner of a notorious club in DC where the rich and powerful come to play, and seduce him.

But what was supposed to be a simple lie has become far more complicated: Isolde has fallen for Mark's handsome and emotionally wounded bodyguard, Tristan. Even worse—she's falling for her future husband himself, a mistake she made once before and has bitterly regretted ever since.

And there's something far darker at play than the machinations of Isolde's uncle or even the twisted longings of her own heart. Because Isolde's new husband has secrets of his own, and the reason he'll stop at nothing to possess Isolde and Tristan both might tear all three of them to pieces.

If the heartbreak doesn't do the job first...

There once was a boy, and I loved him.

Logan Francis Silverstone and I were complete opposites. I danced, and he stood still. He was quiet, while I ran my mouth. He struggled to find a smile, and I refused to frown.

The night I saw the darkness that truly lived inside of him, I couldn't look away.

We were broken together, yet somehow whole. We were wrong together, but always right. We were the stars that burned across the night sky, searching for a wish, praying for better tomorrows.

Until the day I lost him. He threw us away with one hasty decision—a decision that changed us forever.

There once was a boy, and I loved him. And for a few breaths, a few whispers, a few moments, I think he loved me, too.

THE BOOK

A twisting, pulse-pounding thriller from Freida McFadden, the *Sunday Times* bestselling author of *The Housemaid* and *The Coworker*

"You must be our new neighbors!" Mrs. Lowell gushes and waves across the picket fence. I clutch my daughter's hand and smile back: but the second Mrs. Lowell sees my husband a strange expression crosses her face. In that moment I make a promise. We finally have a family home. My past is far, far behind us. And I'll do anything to keep it that way...

I used to clean other people's houses—now, I can't believe this home is actually mine. The charming kitchen, the quiet cul-de-sac, the huge yard where my kids can play. My husband and I saved for years to give our children the life they deserve.

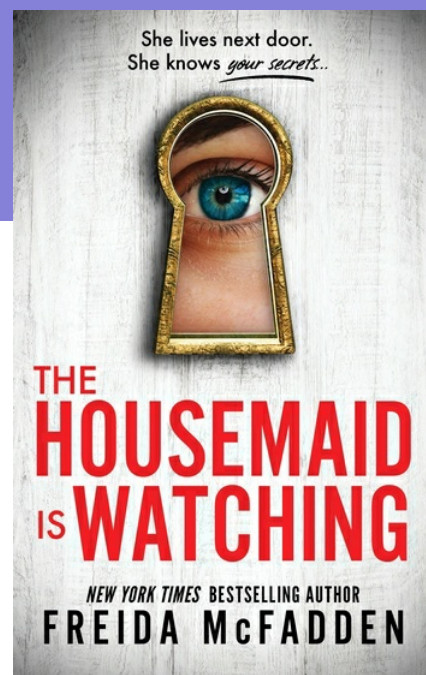

Even though I'm wary of our new neighbor Mrs. Lowell, when she invites us over for dinner it's our chance to make friends. Her maid opens the door wearing a white apron, her hair in a tight bun. I know exactly what it's like to be in her shoes. But her cold stare gives me chills...

The Lowells' maid isn't the only strange thing on our street. I'm sure I see a shadowy figure watching us. My husband leaves the house late at night. And when I meet a woman who lives across the way, her words chill me to the bone: ***Be careful of your neighbors.***

Did I make a terrible mistake moving my family here?

I thought I'd left my darkest secrets behind. **But could this quiet suburban street be the most dangerous place of all?**

From *Sunday Times* bestselling author Freida McFadden comes the next instalment of the unbelievably twisty, tension-packed and globally bestselling *Housemaid* series. Call It What You Want

A Novel

Alissa DeRogatis

A nostalgic ode to all almost-love stories—the ones with no label and no title but an undeniable intensity. Call it what you want... Was it love?

THE PITCH

- The author self-published this novel to immediate success and excitement, with massive engagement on TikTok.
- The author is a digital marketer and dedicated to growing a robust fan base through her social media marketing expertise.
- With abundant Taylor Swift references and oozing with 2010s nostalgia, this book is all-too-relatable for millennial and gen-z women, especially those who have suffered the dreaded "situationship."

THE BOOK

A situationship, a heartbreak, a mistake—you can call it what you want. But was it love?

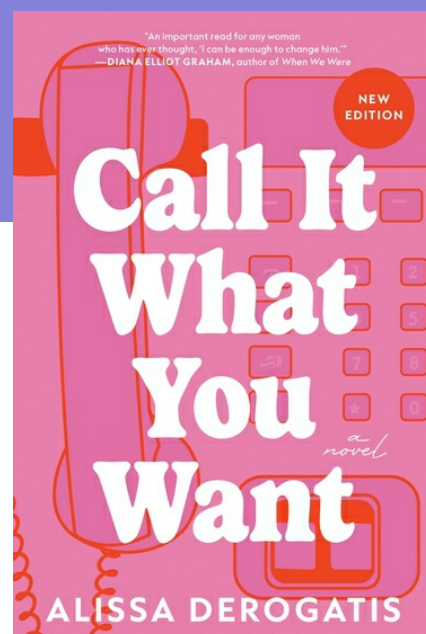

It's 2016, and Sloane Hart's senior year of college is bound to be the best one yet. Her nights consist of drinking cheap vodka and singing along to The Chainsmokers with her friends, and her days are spent writing as she prepares for the post-grad life in New York City she's always dreamed of.

The last thing she needs is for a guy to get in the way of her goals. With graduation so close, she just needs to focus on landing a job and enjoying this last year with her best friends all under one roof. But that plan becomes a little more complicated when her upstairs neighbor, Ethan Brady, enters the picture.

Ethan's pull is undeniable. He's tall, mysterious, and handsome as hell, and when Sloane is with him, the entire world slows to a halt. But Ethan's guarded past is too hurtful for him to face, and if letting Sloane in means that the walls he's built around his heart would come crumbling down, he may not be willing to let that happen.

As their chemistry and connection intensify, Sloane finds herself falling deeper and deeper, but will Ethan ever be ready to catch her?

Nostalgic, heartfelt, and profoundly cathartic, *Call It What You Want* is an ode to almost-love stories—the kinds with no labels, no promises, and the potential to turn your entire world upside down.

THE PITCH

- **For fans of Kathleen Glasgow, Amber Smith, and Jodi Picoult:** Taps into that heart-rending (and mending) emotion that readers crave. As with Laura Nowlin's *If He Had Been With Me*, we are looking for our repackage to bring a fresh readership to this backlist gem

- **Author/story location:** Stacie Ramey lives in Wellington, Florida

THE BOOK

A suicide pact was supposed to keep them together, but a broken promise tore them apart. A powerful story of sisterhood, young adult depression, and love.

Allie is devastated when her older sister commits suicide—and it's not just because she misses her. Allie feels betrayed. The two made a pact that they'd always be together, in life and in death, but Leah broke her promise and Allie needs to know why.

Her divorced parents hover. Her friends try to support her. And Nick, sweet Nick, keeps calling and flirting. Their sympathy only intensifies her grief, her guilt.

But the more she clings to Leah, the more secrets surface. Allie's not sure which is more distressing: discovering the truth behind her sister's death or facing her new reality without her.

A great pick for:
