# Albert Can Cook

## How To Cook Viral Recipes

Albert Niazhevinski

The debut cookbook from @albert\_cancook, one of the internet's most captivating and creative culinary creators, featuring a unique self-standing format!

### THE PITCH

- **VIRAL POTENTIAL:** Albert has already seen viral success with a handful of his recipes.
- **IDEAL BLEND OF STAR AND CONTENT:** This book will enhance the most popular content that Albert creates and introduce him to an even wider audience.
- **100 RECIPES, SBS PHOTOS, AND QR CODES:** In addition to 100 recipes, Albert will shoot videos specifically for the book and we will include step-by-step photography.
- **WELL-CONNECTED AUTHOR:** Albert has already collaborated with many DK Alpha authors, including Nick DiGiovanni, Guga and QCP. He's also done collaborations with other influencers in this space, like Chili Pepper Cooks, Ryan Can't Cook and H Woo Lee.

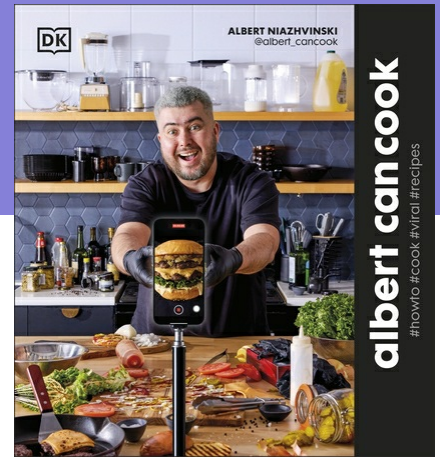

### THE BOOK

"Albert, how did you come up with that idea?" I get this question a lot. As a content creator, my inspiration comes from so many places—movies, TV shows, cartoons, my hunger cravings... even the universe at large!

The key to cooking your favorite, most craveable foods is learning a few simple techniques in the kitchen and then letting your imagination run wild. And, in my case, using as much cheese and bone marrow as possible.

My first cookbook is inspired by what I consider the best of social media. I wanted a self-standing, horizontal format to mimic the ease of swiping through your FYP. And of course it's packed with my most beloved viral recipes that have brought joy and flavor to countless tables and faces. (I mean, when they were scrolling through their feeds, of course.) For the first time, you'll be able to get the recipes for my internet-famous creations like Mozzarella Donuts, Big Mac Burritos, Deadpool Pizza, and many more.

My recipes are a fusion of out-of-the box flavor combinations, fast-food classics remixed, and dishes inspired by movies and TV shows that you won't find anywhere else. The recipes that went viral did so for all sorts of reasons—some are deceptively simple, some are surprisingly complicated, and others are so amazing and delicious you just have to try them yourself!

### THE BOOK

**Astonishing images bring every corner of the Universe, from Mars to the furthest galaxies, to the printed page.**

*Cosmos* is a visually captivating journey through the Universe, and is as expansive as the Cosmos itself. It covers everything from the asteroid belt to deep space probes, the ISS to the Oort Cloud, the Big Bang to the end of the Universe, and (just about) everything in between. It presents space as humanity has never seen it before, featuring the latest images from NASA's James Webb Space Telescope, and a wealth of new pictures that also includes panoramic views of the surface of Mars and images captured by probes that have landed for the first time on comets and asteroids.

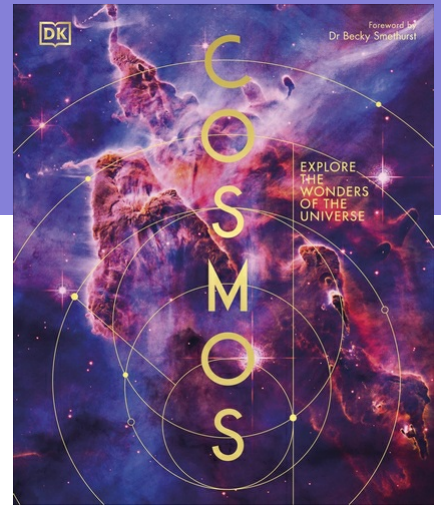

*Cosmos* is a tour through space, starting with the Sun and inner Solar System then moving through the outer planets and into the Milky Way and finally the realm of distant galaxies. The gorgeous images are supported by illustrations that dissect the image or explain the processes going on, such as starbirth or the workings of supermassive black holes. Throughout the book are features on the technology of space exploration, the history of astronomy, and our cultural connection to the night sky. With a clear, stylish, pared-back design, *Cosmos* is a perfect introduction to the wonders of the Universe for young and old astronomers alike. Make time for space time!

# The Deaf Girl

## A Memoir of Hearing Loss, Hope, and Fighting Against the Odds

Abigail Heringer

An inspiring memoir of disability, fame, and identity

### THE PITCH

- As a fan-favorite contestant on *The Bachelor* and *Bachelor in Paradise*, Abigail's story will appeal to all members of #BachelorNation
- The author has a significant platform with 772k followers on Instagram and 127.4k followers on TikTok
- A powerful and empowering memoir of disability, shining a new light on the deaf experience and cochlear implants

### THE BOOK

An inspiring story of hearing loss and hope from *The Bachelor's* first deaf contestant

Abigail Heringer made her television debut as an instant fan-favorite on season 25 of *The Bachelor*. Stepping out of the limousine, she approached her bachelor with a playful declaration: she would be staring at his lips all night for two compelling reasons—her profound deafness since birth and because he had some nice lips!

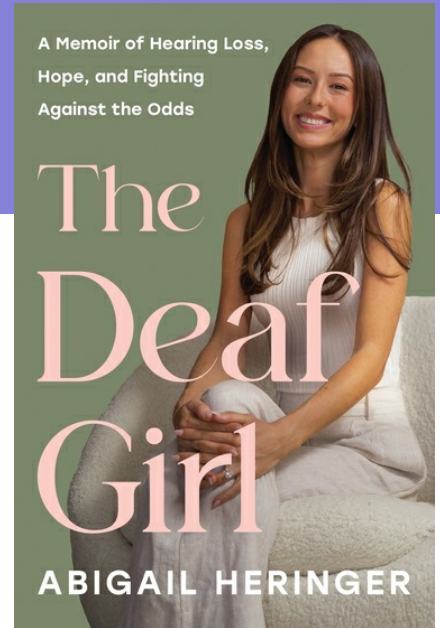

But Abigail's journey wasn't always marked by such confidence. Growing up deaf and introverted, she dreaded being the center of attention, fearing her disability would burden those around her. Among her hearing peers, she felt like an outsider, simply labeled as "the deaf girl." And after receiving a cochlear implant at the age of two, she subsequently struggled to find her place in the Deaf community too. Caught in between two worlds and grappling to define her identity as a deaf woman, Abigail felt like she belonged in neither.

Supported by her family, particularly her deaf older sister Rachel, Abigail has come to understand that while being deaf is part of her identity, it doesn't define her. Throughout her journey, marked by challenges and adversity, Abigail has grown into her own strongest advocate, discovering a new voice that is confident, fearless, and empowered—a voice that enables her to proudly reclaim the title of "the deaf girl" she once resisted and rewrite it as a testament to her resilience and strength.

Hopeful, vulnerable, and uplifting, *The Deaf Girl* shares Abigail's journey of navigating life with a profound hearing loss and her transformation from merely accepting her disability to embracing it wholeheartedly. This memoir serves as an inspiring reminder for anyone who has ever felt like an outsider or struggled to embrace their differences, showcasing that every voice is worthy of being heard.

### THE AUTHOR

Abigail Heringer, deaf advocate, speaker, and social media influencer, emerged into the public eye after captivating audiences on ABC's *The Bachelor*. Born profoundly deaf, she received a cochlear implant at age two and embarked on her journey of navigating the intricacies of a hearing world. After *The Bachelor*, Abigail continued her advocacy for the deaf community, using her platform to shed light on the triumphs and challenges of living with a cochlear implant. Abigail is currently engaged to her fiancé Noah, whom she met on *Bachelor in Paradise*. They reside in Tulsa, Oklahoma.

# How to Train Your Dog with Love + Science

## A Dog Lover's Guide to Animal Behavior and Positive Reinforcement

Ever wish your dog could talk? You need to learn their language! From the co-founder of the School For The Dogs, this essential training guide teaches you all about animal behavior and learning to improve two-way communication between owners and their dogs

### THE PITCH

- **Speaking the dog's language:** Very few books speak to the importance of two-way communication between dogs and their owners as well as building a strong relationship with your dog and the role that plays in training
- **Backed by science:** The dog training techniques outlined in this book use behavioral science to not only teach the how but the why, to make learning more effective
- **A great tool, no matter where you live:** Most training books and classes have a suburban bias, but this book will speak to training a dog in all types of living: urban/city centers, apartment living, etc.
- **Written by an in-demand expert:** The author founded the New York City-based School For The Dogs and has worked with a number of high-profile celebrities and thousands of clients globally thanks to virtual class options
- **Author location:** Annie Grossman lives in New York City, New York

### THE BOOK

**Finally: A dog training book that makes sense—for both dogs and humans—using positive reinforcement techniques based on animal behavioral science.**

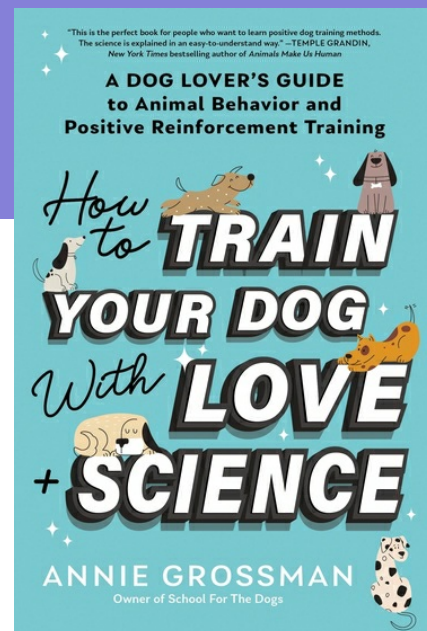

For generations, celebrity trainers have preached that dog owners must "dominate" dogs and have criticized people for daring to treat pets with affection.

*How To Train Your Dog with Love + Science* presents a modern and science-based approach to dog training, showing how behavior can be changed without coercion and force. Annie Grossman, a journalist-turned-dog trainer, breaks down what positive reinforcement actually is and makes the case that "good dog training" may even be a window into understanding ourselves.

Grossman offers building-block exercises and tips on how to train effectively using the reward-based methods she's honed over the last decade with clients at her Manhattan training center, School For The Dogs. Whether you've just brought a new dog into your home or you're wanting to teach an old one new tricks, *How to Train Your Dog with Love + Science* will help you consider what behaviors you want and help you to achieve your goals using techniques rooted in the science of behavior.

Woven into this lively how-to guide is the century-long history of positive reinforcement training, from Pavlov's dogs and Skinner's rats to today's apartment-dwelling dogs using Wifi-enabled devices.

By employing the easy-to-understand techniques laid out in this book, you will be able to train your dog to live confidently, comfortably, and happily in your world.

# I'm Sorry for My Loss

## An Urgent Examination of Reproductive Care in America

Rebecca Little, Colleen Long

**A comprehensive sociological look at the laws, pop culture, medicine, and history surrounding female grief and pregnancy loss, how it came to be so stigmatized, and what a system of more compassionate care could look like, from Pulitzer Prize finalist and White House correspondent Colleen Long and freelance journalist Rebecca Little.**

### THE PITCH

- **Well-connected authors:** Colleen Long is a White House correspondent for the AP and Rebecca Little is a freelance journalist and former contributing editor for Chicago magazine. They have relationships with NYT, WP, The New Yorker, The Atlantic, NPR, MSNBC, Vanity Fair, and more
- **Author location:** Colleen Long lives in Washington D.C. Rebecca Little lives near Chicago, Illinois

### THE BOOK

**A must-read investigation of reproductive health under fire in Post-Roe America.**

More than a million people lose a pregnancy each year, whether through miscarriage, stillbirth, or termination for medical reasons. For most, the experience often casts a shadow of isolation, shame, and blame. In the aftermath of the 2022 decision to overturn Roe v Wade, 25 million people of childbearing age live in states with laws that restrict access to abortion, including for those who never wanted to end their pregnancies. How did we get here?

Rebecca Little and Colleen Long, childhood friends who grew up to be journalists, both experienced late-term loss, and together they take an incisive, deeply reported look at the issue, working to shatter taboos that have made so many pregnant people feel ashamed and alone. They trace the experience of pregnancy loss and reproductive care from America's founding to the present day, exposing the deep impact made by a dangerous tangle of laws, politics, medicine, racism, and misogyny. Combining powerful personal narratives with exhaustive research, *I'm Sorry for My Loss* is a comprehensive examination on how pregnancy loss came to be so stigmatized and politicized, and why a system of more compassionate care is critical for everyone.

# This Girl's a Killer

A Novel

Emma Wells

Meet your new best friend (who also just happens to be a serial killer)

## THE PITCH

- **A Killer Main Character:** Following in the footsteps of *My Sister, the Serial Killer*, *Promising Young Woman*, and even the murderous Georgia Miller, Cordelia Black is a character you can't help but root for (even under the worst of circumstances).
- **Fresh and Feminist Thriller:** Incredibly empowering storyline that fits in the "good for her" genre of books, perfect for the expanding mystery readership and for fans of *The Bandit Queens* and *Layne Fargo*.

- **Author location/story location:** The author lives in Louisiana where the story is set.

## THE BOOK

For readers of *Finlay Donovan is Killing It* and *The Bandit Queens* comes a bright and biting thriller following Cordelia Black, a best friend, a businesswoman, and, in her spare time, a killer of bad men.

*Ask Cordelia Black why she did it. The answer will always be: He had it coming.*

Cordelia Black loves exactly three things: Her chosen family, her hairdresser (worth every penny plus tip), and killing bad men.

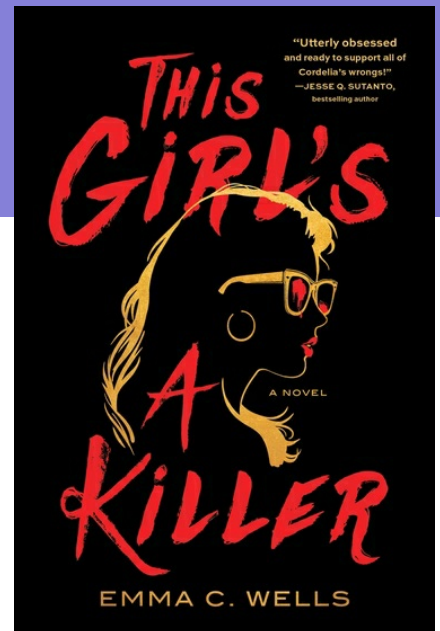

By day she's an ambitious pharma rep with a flawless reputation and designer wardrobe. By night, she culls South Louisiana of unscrupulous men—monsters who think they've evaded justice, until they meet her. Sure, the evening news may have started throwing around phrases like "serial killer," but Cordelia knows that's absurd. She's not a killer, she is simply karma. And being karma requires complete and utter control.

But when Cordelia discovers a flaw in her perfectly designed system for eliminating monsters, pressure heightens. And it only intensifies when her best friend starts dating a man Cordelia isn't sure is a good person. Someone who might just unravel everything she has worked for.

Soon enough Cordelia has to come face to face with the choices she's made. The good, the bad, and the murderous. Both her family, and her freedom, depend on it.

## THE AUTHOR

**EMMA C. WELLS** loves anti-heroes, dark humor, witty banter, and ride-or-die friendships. Twisty relationships are her kryptonite (or catnip—depending on how you look at it). *THIS GIRL'S A KILLER* is her debut novel. Emma lives in Louisiana where the novel is based.

It's been two years since Rose—a first-generation Middle Eastern American, functional trainwreck, and reporter for online journal *The Shred*—wrote the investigative article that exposed Poppy as a socialite grifter. Normally, one of her articles going viral would be cause for celebration, but the highly publicized trial that followed turned Poppy into the internet's favorite celebrity. And Rose has been reeling from the aftermath ever since. Although Poppy served her time for defrauding some of the richest, most powerful men in the world, Rose knows this is only the tip of the iceberg for Poppy's crimes. She just can't prove it yet... At least not without the help of a devilishly handsome FBI agent gone rogue.

As Poppy's star rises as an influencer and pop-culture icon, Rose quickly descends into a downward spiral of guilt and obsession. Her article created Poppy's fame, so Rose needs to right her wrong by exposing Poppy for the monster that she is. But it's not going to be easy taking down the most famous girl in the world.

Fritzi is a champion. After escaping the clutches of Dieter Kirch, the sadistic leader of the witch hunters, Fritzi and Otto have taken refuge among the witches of the Black Forest. Fritzi is finally ready to assume her place on the council as the coven's goddess-chosen champion. Plagued by distrust and self-doubt, Fritzi throws herself into her duty to serve the goddesses . . . until she uncovers a powerful secret that could mean the very undoing of magic itself.

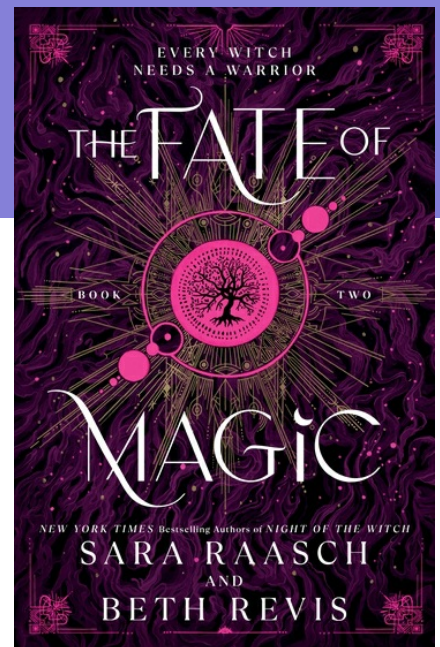

Otto is a warrior. He swears himself to Fritzi as her bonded protector, certain the peaceful unity of a witch and hunter will heal the wounds he helped make. But as the horrifying plot that threatens the Black Forest's magic comes to light, Otto will have to face his both his past and what it means to bind himself to a magic he does not fully understand.

Shadows loom. Truths are revealed. And as dangers new and old arise, Fritzi and Otto must stand together against everything that threatens magic—even if the biggest threat might be the very bond they share.

# Holly Jolly! A High-Contrast Christmas Book

duopress labs

**A charming high-contrast introduction to Christmas. Black-and-white patterns and illustrations pair with friendly greetings for Santa, a friendly reindeer, a Christmas elf, yummy candy canes, and more.**

## THE PITCH

- Part of duopress' bestselling high-contrast series with nearly 800,000 copies sold to date and growing year after year.
- Color vision is not fully developed in newborns, meaning many babies have trouble distinguishing colors. Babies' eyes are attracted to borders, high-contrast patterns, and black-and-white shapes, so this book is the perfect way to introduce little ones to the world.
- Because black-and-white art allows babies to see the pages better, they love to look at high-contrast books—and this book is a surefire way to grab the attention of little ones.

## THE BOOK

**Hello, friendly reindeer. Looking jolly, Santa. Hola, Christmas tree. Happy holidays to all...**

When babies are first born, they can't distinguish between colors the same way that older babies can. But studies show that babies can see high-contrast black-and-white shapes and patterns from the very first days of life, and this charming introduction to Christmas and the holiday season, paired with friendly text and bold, basic patterns, provides an important high-contrast experience for young developing eyes. Using simple greetings like, "What's going on, Christmas elf?," "Looking jolly, Santa," and "Ni hao, bright star," alongside lovely black-and-white art by Jannie Ho (illustrator of Hello, My World), Holly Jolly! A High-Contrast Christmas Book is the perfect board book for babies just beginning to look around and learn about their world.

- Printed on sturdy board using nontoxic soy-based inks
- Great quality and baby safe
- Real board books, perfect for little hands
- Round corners for extra safety
